### Source Code URL

- <https://github.com/tong2984a/AndroidRecorder>

### Description

- btnCardChildren
  - Click once to start recording
  - Click again to
    - Stop recording
    - Save recording at /Android/data/com.denicks21.recorder/cache/q.ogg (for playback by btnCardPopo)
- btnCardChildrenPlayback

- Click to playback /Android/data/com.denicks21.recorder/cache/q.ogg
- btnCardPopo
  - Click once to play /Android/data/com.denicks21.recorder/cache/q.ogg
  - Note: recording starts at the same time while the above what.ogg is playing (sorry tricky i know, my bad 🤔)
  - click button again to
    - stop recording
    - save recording at /Android/data/com.denicks21.recorder/cache/what.ogg
    - Copy the what.ogg to /storage/emulated/0/Music/what.ogg (for playback by ChatBot)
    - Playback the above what.ogg (just so easier to test)
- btnCardPopoPlayback
  - Click to playback /Android/data/com.denicks21.recorder/cache/what.ogg

## Chatbot

### Reference

- <https://github.com/indently/ChatBot>

### Source Code URL

- <https://github.com/tong2984a/ChatBot>

### Description
